

Chaymae BENAYAD

Front-End Web Developer focusing on writing clean and efficient code and genuinely loving to learn. Proficient with **HTML5, CSS3, JavaScript** and **React**. Highly adept at both independent and collaborative projects. Seeking for new opportunities to expand my skill set.

 My Portfolio Website : <https://chaymae-benayad.netlify.app>

ACADEMIC BACKGROUND

- 2019-2022** • **Engineering cycle - Software Engineering (ENSAH)**
National School of Applied Sciences of Al Hoceima, Morocco
- 2017-2019** • **Integrated preparatory cycle (ENSAH)**
National School of Applied Sciences of Al Hoceima, Morocco
- 2017** • **Baccalaureate - Mathematical Sciences**
Ibn Tahir High School - Errachidia, Morocco

PROFESSIONAL EXPERIENCES

February-August 2022 Graduation Project Internship: "Containerized Evolved Packet Core Deployment" - Ericsson

Collaborating with the team to deploy Cloud Container Distribution, a software-only product which provides an integrated container orchestration and management solution based on Kubernetes.

- **Tools** : SUSE , OpenStack, Docker, Kubernetes, Helm, Nginx.

May-June 2021 End of Year Project Internship: "Casa Delivery" - ENSAH

Design and development of a web application based on genetic algorithms that allows delivery drivers to find the optimal path by traversing a set number of landmarks in Casablanca city.

- **Tools** : HTML5, CSS3, JavaScript, Django, Distance Matrix API, SQLite.

July-August 2020 Application Internship: "Auto Park Management" - ORMVA-TF

Design and development of a web app to help manage the auto park of the "Office Régional de Mise en Valeur Agricole du Tafilalet". It facilitates the management of vehicles, drivers and mission orders, the control of fuel and mileage.

- **Tools** : HTML5, CSS3, jQuery, AJAX, Django, PostgreSQL.

PERSONAL PROJECTS

Trivia Quiz

Design and development of a responsive web app that can access trivia questions from the Open Trivia Database API. It is dedicated for people who love to test their knowledge in different domains like science, history, music, sports, art... The user can choose the number, category, difficulty and the type of questions.

- **Tools** : HTML5, CSS3, JavaScript and React.js.

Meme Creator

Design and development of a responsive web app dedicated for people who love creating funny memes. It interacts with an API to get memes data. The user can generate or upload meme images, add top and bottom text to them, change text size & position and download created memes.

- **Tools** : HTML5, CSS3, JavaScript, React.js and html2canvas.

Cookbook

Using the MVC (Model View Controller) architecture, I built Cookbook, a web app dedicated for people who love cooking, want to discover new recipes and want to add their own recipes. It interacts with an API to get and post recipes data.

- **Tools** : HTML5, SCSS and JavaScript (ES6).

Journey

Working with OOP (Object-Oriented Programming) using ES6 classes, I built Journey, a modern web app dedicated for people who love traveling and want to keep track of their visited places.

- **Tools** : HTML5, CSS3, JavaScript (ES6) and Leaflet library.

SKILLS

Modeling & Design:

UML, Figma, Adobe Illustrator.

Programming Languages:

JavaScript (ES6), Java, Python, C, C++.

Front-end Technologies :

HTML5, CSS3, SCSS, JSON, XML.

Frameworks / Libraries:

React.js, jQuery, Bootstrap, Django.

Database Management:

MySQL, PostgreSQL, SQLite.

Version Control:

Git, GitHub.

Operating Systems:

Windows, Linux.

EXTRACURRICULAR

Volunteer work in the association
"Village d'enfants SOS".

Participant in the 1st edition of the Hult
Prize Of ENSAH 2020 competition.

CERTIFICATIONS

React | In Progress

Udemy

JavaScript | September 2022

From Udemy

HTML5 / CSS3 | August 2020

From OpenClassrooms

LANGUAGES

Arabic : Native proficiency

French : Full professional proficiency

English : Professional working proficiency
